ABSTRACT

This book explores all kinds of packaging materials including bags, boxes, etc. and how they are used to protect and display products. Contents are divided into six chapters: (1) "Appetizers" includes activities that can be done individually to become familiar with the topic of packaging and structures; (2) "Concepts" provides a basis for packaging and structure development; (3) "Activities" features activities and classroom projects; (4) "Stories" presents teacher narratives on packaging and structure development; (5) "Resources" provides resources for the implementation of the activities; and (6) "About Standards" describes the standards addressed in math, science, technology, social studies, and English language arts. The appendix features "Packaging Unraveled: The Inside Story." (Contains 46 references.) (YDS)
